### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 10, --,-- (a comma) has been inserted between "sweeping objects" and "including said second group".

In claim 8, line 2, "," (the comma) between "wherein" and "each first group" has been deleted.

In claim 11, line 1, --a—has been inserted between "broom handle is" and "counter brush broom handle".

In claim 11, line 1, "," (the comma) between "broom handle; and" and "wherein the first group" has been deleted.

In claim 11, line 2, --of—has been inserted between "to the length" and "said handle".

In claim 17, line 1, "The" (the first word of the claim) has been deleted and replaced with "A".

The following is an examiner's statement of reasons for allowance: The prior art failsto disclose or suggest a device and method having all of the claimed limitations.

Art Unit: 3711

While various motivational techniques and methods are known in team sports settings, there is no suggestion of a device and associated method incorporating a broom assembly formed of a broom handle, a dustpan and two sets of figurines arranged in the manner recited. It should be noted that the term "may", as in "may be assembled" in claim 15, "may be selectively affixed in claim 16, and "may be used" in claim 17 are interpreted by the examiner as meaning "is capable of" in the context of the claim, and thus reciting a clear structural limitation, rather than "may optionally have this feature" which would render the claims indefinite. It is the examiner's opinion that one of ordinary skill in the art would understand, for example, "may be assembled" as meaning "are capable of being assembled" in the recited fashion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Slade, Hennessy, Jiang Stein and Pool disclose various motivational devices and methods. Rae discloses a novelty broom shaped like a sports implement.
